**FOR IMMEDIATE RELEASE**

**MORNING POINTE FOUNDATION  
GOLF TOURNAMENT POSTPONED**

**CHATTANOOGA, Tenn. (May 5, 2020)** – The Morning Pointe Foundation announces the postponement of its 6th Annual Mastering Memory Care Golf Tournament due to the ongoing COVID-19 pandemic and recent tornado that affected Morning Pointe Senior Living. The tournament was to be played May 12, 2020 at Lookout Mountain Club in Lookout Mountain, Georgia. As the health and safety of everyone associated with Morning Pointe and the community remains a top concern, we are postponing this event indefinitely. A new date for the tournament—likely a fall timeframe—will be announced when more information becomes available. The Morning Pointe Foundation wishes to thank the Lookout Mountain Club and all sponsors and underwriters for their flexibility in rescheduling.

The Mastering Memory Care Golf Tournament is an annual event that helps raise money for local nursing scholarships and caregiver support. In 2019, the Tournament raised over \$65,000 that directly benefited students pursuing careers in geriatric nursing from institutions such as the University of Tennessee at Chattanooga, Chattanooga State Community College, Columbia State Community College, and other community colleges in our region.

“We’re grateful to all our Foundation sponsors that work so hard to make this golf tournament an exciting and fulfilling community experience,” said Audra Hopkins, executive director of The Morning Pointe Foundation. “Until we reschedule the tournament, the Foundation will continue to focus on caregiver support and assisting with tornado recovery.”

*The Morning Pointe Foundation is a 501(c)3 non-profit public service organization located in Ooltewah, Tennessee, that provides caregiver support programs, sponsors educational*

*awareness events, and funds clinical scholarships to advance the care of seniors in five states across the southeast.*
